UI/UX EXPERIMENT 9

UID EX 9

- **AIM:**
- The aim is to design input forms that validate user data, such as email and phone numbers, and display dynamic error messages using HTML, CSS, and JavaScript with the **Validator.js** library.

PROCEDURE:

Step 1: Set up the HTML file to create the basic structure of the form, including input fields for email and phone numbers.
Step 2: Add the **Validator.js** library using a CDN link in the HTML file to access pre-built validation functions.
Step 3: Create a CSS section or file to style the form and define how error messages should appear (e.g., red text).
Step 4: Create a JavaScript file (script.js) to capture user input and implement the validation logic.
Step 5: Use JavaScript to check if the input matches required formats (email/phone) and toggle the visibility of error messages.
Step 6: Link the JavaScript file to the HTML file and run the program in a browser to test the validation.

Html Code:

index.html

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <title>Modern Form Validation</title>
    <script src="https://unpkg.com/validator@latest/validator.min.js"></script>
    <style>
        body {
            margin: 0; padding: 0;
            background: linear-gradient(135deg, #667eea 0%, #764ba2 100%);
            height: 100vh; display: flex; align-items: center; justify-content: center;
            font-family: 'Poppins', sans-serif;
        }
        .form-card {
            background: rgba(255, 255, 255, 0.95);
            padding: 40px; border-radius: 20px;
            box-shadow: 0 15px 35px rgba(0,0,0,0.2);
            width: 350px; text-align: center;
        }
        h2 { color: #4a00e0; margin-bottom: 25px; }
        .input-box { width: 100%; position: relative; margin-bottom: 20px; }
        input {
            width: 90%; padding: 12px; border: 2px solid #ddd;
            border-radius: 10px; outline: none; transition: 0.3s;
        }
        input:focus { border-color: #667eea; box-shadow: 0 0 8px rgba(102,126,234,0.5); }
        .error-msg {
            color: #ff4d4d; font-size: 11px; font-weight: bold;
            display: none; margin-top: 5px; text-transform: uppercase;
        }
        button {
            background: linear-gradient(to right, #667eea, #764ba2);
            color: white; border: none; padding: 12px 30px;
            border-radius: 25px; cursor: pointer; font-weight: bold;
            transition: transform 0.2s, box-shadow 0.2s;
        }
        button:hover { transform: scale(1.05); box-shadow: 0 5px 15px rgba(0,0,0,0.3); }
    </style>
</head>
<body>

<div class="form-card">
    <h2>Join Us</h2>
```

```html
<body>

<div class="form-card">
    <h2>Join Us</h2>
    <form id="valForm">
        <div class="input-box">
            <input type="text" id="userEmail" placeholder="Enter Email">
            <div id="emailErr" class="error-msg"> Invalid Email Address</div>
        </div>

        <div class="input-box">
            <input type="text" id="userPhone" placeholder="Enter Phone Number">
            <div id="phoneErr" class="error-msg"> Invalid Phone Format</div>
        </div>

        <button type="submit">SUBMIT</button>
    </form>
</div>

<script src="script.js"></script>
</body>
</html>
```

Javascript code:

<> index.html JS script.js ×

```javascript
// Step 4 & 5: Handle validation logic
document.getElementById('valForm').addEventListener('submit', function(e) {
    e.preventDefault();

    const emailInput = document.getElementById('userEmail').value;
    const phoneInput = document.getElementById('userPhone').value;

    const emailErr = document.getElementById('emailErr');
    const phoneErr = document.getElementById('phoneErr');

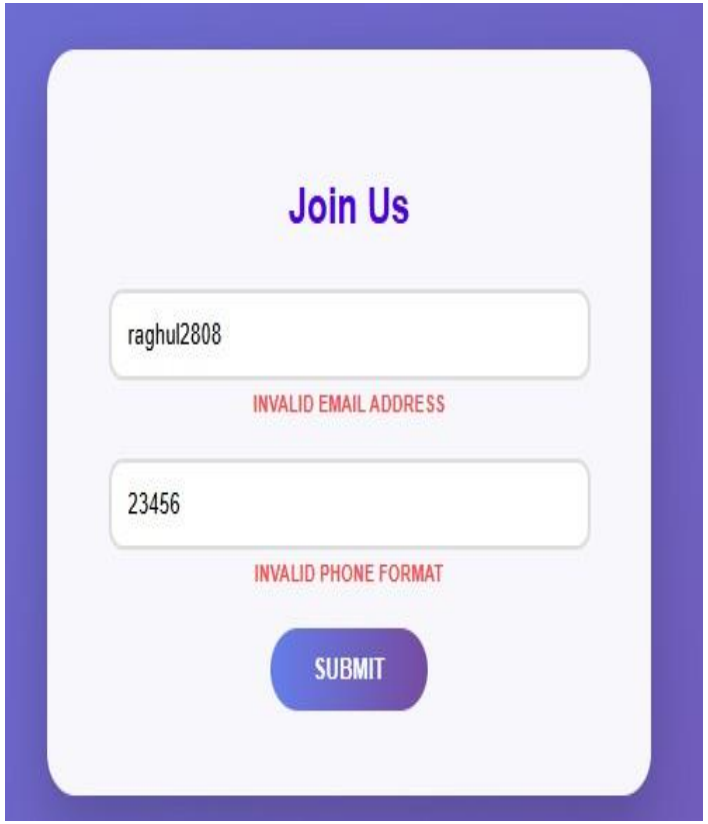
    let success = true;

    // Email Check via Validator.js
    if (!validator.isEmail(emailInput)) {
        emailErr.style.display = 'block';
        success = false;
    } else {
        emailErr.style.display = 'none';
    }

    // Phone Check via Validator.js
    if (!validator.isMobilePhone(phoneInput, 'any')) {
        phoneErr.style.display = 'block';
        success = false;
    } else {
        phoneErr.style.display = 'none';
    }

    if (success) {
        alert("✨ Validation Successful! Data sent.");
    }
});
```

Output:



Join Us
raghul2808
INVALID EMAIL ADDRESS
