UI/UX EXPERIMENT 8

UID EX 8

AIM

•To design storyboards that illustrate the user flow of a mobile e-commerce application using Balsamiq.

INITIALIZATION / PROCEDURE

•1. Tool Setup

Open the Balsamiq Wireframes tool and begin the design process by accessing the platform.

•2. Project Creation

Start a new project and create multiple mobile screen layouts representing different stages of the shopping journey.

•3. Screen Planning

Ensure each screen highlights a specific step in the user flow, such as browsing products, viewing details, adding items to the cart, and completing a purchase.

•4. UI Component Selection

Use Balsamiq's built-in library to add interface elements like buttons, input fields, dropdown menus, images, and icons.

•5. Design Focus

Keep the wireframes simple and user-friendly, emphasizing clarity, easy navigation, and a logical sequence of actions.

PROCEDURE:

Tool Link: https://balsamiq.com/

Step 1: Define User Flow

Identify key screens like Homepage, Categories, Product Details, Checkout, and Payment. Map the user journey from browsing to successful purchase.

Step 2: Create Storyboards

Open Balsamiq, start a new project, and add wireframe screens for each step.

Step 3: Design Screens

Use built-in UI elements (buttons, text fields, icons) and keep the design simple and clear.

Step 4: Arrange Flow

Organize screens in logical order to represent smooth user navigation.

a. Install the Tool

Download and install Balsamiq from the official website.

b. Create a New Project

Launch the application and start a new design project.

c. Add Wireframe Screens

Use the "+" option to create multiple mobile screens representing each step of the user flow.

d. Design Each Screen

- Use built-in UI components such as buttons, text fields, dropdowns, and icons
- Keep the design simple and focused on usability and interaction

e. Organize the Flow

Arrange the wireframes in a logical sequence to reflect the actual navigation path of users.

Ensure smooth transitions and clear representation of user actions.
